

RAJKUMAR J

Java Full Stack Developer | Spring Boot | React | MySQL | REST APIs

Cuddalore, Tamil Nadu, India | +91 8825520336 | rajkumar.work.in@gmail.com | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Java Full Stack Developer with hands-on experience building full-stack web applications and REST APIs using Core Java, Spring Boot, React, and MySQL. Skilled in MVC/layered architecture, Spring Data JPA/Hibernate, CRUD operations, validation, global exception handling, responsive UI development, API integration, debugging, and cloud deployment. Strong analytical foundation with a focus on clean, maintainable code and collaborative development.

TECHNICAL SKILLS

Languages: Core Java, JavaScript, TypeScript, HTML, CSS

Frontend: React, Redux, Tailwind CSS, Responsive Web Design

Backend: Spring Boot, Spring Data JPA / Hibernate, REST APIs, MVC / Layered Architecture, Validation, Exception Handling

Database: MySQL

Tools & Platforms: Git, GitHub, Postman, VS Code, Firebase

Other: API Integration, Debugging, Cloud Deployment (Vercel / Render)

PROJECTS

DK Salon — Full Stack Web Application

Jun 2026 – Jul 2026

[Website](#) | [GitHub](#)

- Engineered a responsive full-stack web application for mobile and desktop users using React and Tailwind CSS.
- Designed and implemented REST APIs with Spring Boot using Controller, Service, and Repository layers.
- Integrated MySQL database with input validation and global exception handling, ensuring reliable and secure data flow.
- Developed a dynamic contact system with real-time email notifications, enhancing customer engagement.
- Deployed the frontend on Vercel and the backend on a cloud platform for production-style hosting.

Developer Portfolio Website

Jul 2026 – Aug 2026

[Website](#) | [GitHub](#)

- Designed and developed a responsive personal portfolio website to present projects, technical skills, education, and professional experience.
- Built the interface with semantic HTML, modern CSS, and JavaScript, with responsive layouts optimized for desktop and mobile.
- Structured project and skills sections for clear recruiter navigation and implemented interactive UI behavior with JavaScript.
- Deployed the portfolio to Vercel and used GitHub for source control and continuous deployment.

Product Service — E-Commerce Backend API

Jul 2026 – Aug 2026

[GitHub](#)

- Built scalable REST APIs for product management (CRUD operations), improving backend efficiency.
- Implemented entity relationships and database mapping using Spring Data JPA.
- Integrated global exception handling, improving API reliability and debugging efficiency.
- Consumed external APIs using RestTemplate and tested endpoints with Postman.

PROFESSIONAL EXPERIENCE

Victory eServices Private Limited — Data Entry Operator

Nov 2023 – Dec 2025

- Processed and managed large-scale datasets with 99%+ accuracy, maintaining data integrity and consistency.
- Improved operational efficiency through structured data validation and workflow optimization.

EDUCATION

FITA Academy — Java Full Stack Development Bootcamp

Graduated Jul 2026

- Completed intensive training in Java, Spring Boot, React, and MySQL with hands-on projects.
- Gained practical experience in API development, database integration, and full-stack architecture.

Thiruvalluvar University — B.Sc Mathematics

Graduated Jul 2023

- Developed strong analytical thinking and problem-solving abilities; applied mathematical logic in programming.
