

RAJKUMAR J *Java Full Stack Developer*

Cuddalore, Tamil Nadu, India | +91 8825520336 | raj कुमार.work.in@gmail.com | [LinkedIn](#) | [Portfolio](#) | [GitHub](#)

SUMMARY

Java Full Stack Developer with hands-on freelance and project experience building full-stack web applications and REST APIs using Core Java, Spring Boot, React, and MySQL. Skilled in MVC/layered architecture, Spring Data JPA/Hibernate, CRUD operations, input validation, global exception handling, responsive UI development, API integration, and cloud deployment. Delivers clean, production-ready code end-to-end — from requirements through deployment — with a strong analytical foundation and a track record of independently shipping client and personal projects.

PROFESSIONAL EXPERIENCE

Freelance Full Stack Developer — Self-Employed

05/2026 – Present

- Design and develop full-stack web applications end-to-end for independent clients — React on the frontend, Spring Boot and MySQL on the backend — owning the complete delivery cycle from requirements through deployment.
- Build and integrate RESTful APIs following MVC/layered architecture, with input validation and centralized exception handling for reliable, secure data flow.
- Collaborate directly with clients to translate business requirements into responsive, functional web applications delivered on schedule, deploying frontends on Vercel and backends on cloud platforms for production-style hosting.

Data Entry Operator — Victory eServices Private Limited

12/2023 – 08/2025

- Processed and managed large-scale datasets with 99%+ accuracy, maintaining data integrity and consistency.
- Improved operational efficiency through structured data validation and workflow optimization.

PROJECTS

Retail Business Website — Electrical & Hardware Industry

08/2026 – 09/2026

Freelance Client Project | [Website](#) | [GitHub](#)

- Built a fully responsive, multi-page business website (Home, Products, Brands, About, Contact) using React, Vite, and React Router for a local retail hardware, electrical, and plumbing supply store.
- Designed a WhatsApp-first inquiry flow with category-specific pre-filled links, an auto-rotating hero slider, animated brand marquee, and interactive product category grid using Tailwind CSS.
- Delivered a fast, secure, backend-free static site with SEO-optimized meta tags — deployed on Vercel with continuous deployment via GitHub.

Developer Portfolio Website

07/2026 – 08/2026

Frontend Development | [Website](#) | [GitHub](#)

- Designed and developed a responsive personal portfolio website using semantic HTML, modern CSS, and JavaScript, with layouts optimized for desktop and mobile.
- Structured project and skills sections for clear recruiter navigation and implemented interactive UI behavior with JavaScript.
- Deployed the portfolio to Vercel and used GitHub for source control and continuous deployment.

DK Salon — Full Stack Web Application

06/2026 – 07/2026

Full Stack Development | [Website](#) | [GitHub](#)

- Engineered a responsive full-stack web application using React and Tailwind CSS, with REST APIs built in Spring Boot using Controller, Service, and Repository layers.
- Integrated MySQL database with input validation and global exception handling, plus a dynamic contact system with real-time email notifications for customer engagement.
- Deployed the frontend on Vercel and the backend on a cloud platform for production-style hosting.

EDUCATION

Java Full Stack Development Bootcamp

07/2026

FTTA Academy

- Completed intensive training in Java, Spring Boot, React, and MySQL, gaining hands-on experience in API development, database integration, and full-stack architecture.

B.Sc Mathematics

07/2023

Thiruvalluvar University

- Developed strong analytical thinking and problem-solving abilities; applied mathematical logic in programming.

SKILLS

Languages: Core Java, JavaScript, TypeScript, HTML, CSS

Frontend: React, Redux, React Router, Vite, Tailwind CSS, Responsive Web Design

Backend: Spring Boot, Spring Data JPA / Hibernate, REST APIs, Validation, Exception Handling

Database: MySQL **Tools:** Git, GitHub, Postman, VS Code, Firebase, Vercel **Other:** API Integration, Debugging, Cloud Deployment, Agile Collaboration
